

DIGITAL FLASH GUNS

IMPROVE YOUR FLASH PICTURES! NO RED EYE!

An IncaBlitz Digital Flashgun is the ideal accessory to make your flash pictures much better. They are much more powerful, for better and stronger flash light, and move the flash further away from the lens, useful for reducing red eye. They can also work wirelessly, and some models have a slave to give you a second flash. Also, a Flashgun that can bounce off a ceiling will create very nice light. If you want to improve your digital flash pictures, then an IncaBlitz Digital Flashgun is a must!

DIGITAL FLASH - WHILE STOCKS LAST WOCTRON 2800 DSF

\$227.85

Designed especially for use with digital still cameras with a built in flash, the 2800DSF operates as an external slave. The sophisticated circuitry will detect the digital cameras flash and set its self to work as a second flash. It has 2 automatic modes, a ready light and an auto check light. The zoom head has four positions (for 2840, 4560, 7090 & 100135 mm lenses), bounce adjustment from -5°9 and horizontal swivel from 0330°. The two position Slave Mode Selector (S1 & S2) is set for the brand of camera used. S1 is the common slave setting and for cameras that do not use preflash. The S2 setting is for digital cameras that use preflash. Requires 4x AA batteries (not supplied). GN: 28 ISO100/meters. **380046**

LUMIQUEST LIGHT SHAPERS

A photographic flash is a small, high intensity source of light which produces generally harsh, unattractive shadows. The quality of this light has been a concern to photographers since the introduction of the flash. LumiQuest have developed the most effective and comprehensive line of photographic flash accessories in the world.

LUMIQUEST SOFT SCREEN POP-UP FLASH DIFFUSER

\$32.75

GET BETTER FLASH IMAGES INSTANTLY
 When you take a flash photo with your digital camera, the light is often very harsh, and the colours washed out. The Soft Screen is designed for the built-in pop-up flashes of many digital cameras, and diffuses the flash light, making softer light for much better flash pictures.

PROMAX SYSTEM FOR BOUNCE FLASHGUNS

The ProMax System is the latest refinement of Lumiquest's most popular photo flash accessories. The basic unit allows 80% of the light to bounce off the ceiling while 20% is redirected forward as fill light. The system includes interchangeable white, gold and silver inserts as well as a removable frosted diffusion screen. The ProMax System will give you studio-like control in a convenient kit which attaches in seconds with hook and loop tabs and folds flat for storage in a sturdy pouch.

\$135.70

SOFTBOX IDEAL FOR NORMAL FLASHGUNS

The SoftBox enlarges and diffuses the light with the flash in the direct flash position. The light is softened and more evenly distributed as it passes through a center-weighted frosted diffuser. The unique design does not block either exposure sensors or auto focus assist beams on most flashes.
