12.3-megapixel DX-format CMOS imaging sensor: Coupled with Nikon's EXPEED image processing technologies and NIKKOR optics, breathtaking image fidelity is assured. Continuous shooting up to 4.5 frames-per-second: Combined with fast 0.15ms power-up and split-second 65ms shooting lag, action and decisive moments are captured easily, also features HD movie mode.

Nikon D90 Body Only	\$7498.00
---------------------	-----------

NIKON D60

With a split-second shutter response, the D60 captures pictures that cameras with longer time lags miss. Ease of use and creative options with exclusive Nikon technologies help deliver high-quality pictures with vibrant color and stunning, edge-to-edge detail. Such superior results are achieved through a high-resolution image sensor utilizing 10.2 megapixels, world-famous NIKKOR lenses delivering razor-sharp pictures, and many cutting-edge Nikon features to further enhance your picture-taking experience.
